President of the Corporation
Bangor, Nov 29, 1866 5w

CANCERS CAN BE CURED!
DR. L CHASE,
(*LATE OF PORTLAND*),
THE CELEBRATED
INDIANŒPATHY, CANCER & HUMOR
DOCTOR,
HAVING purchased the residence of H. A. Wood, 54 Hammond Street, Bangor, Maine, would be happy to be consulted by all who are afflicted with
Cancers, Cancer Humors, Tumors, Scrofula, Leprosy, Salt Rheum, Fits, Neuralgia, Bronchial Affections, Catarrh, Rheumatism, Sick Headache, Liver Diseases, Female Weaknesses, Piles, Diseases of the Throat and Lungs, Diseases of the Kidneys, Stiff Joints, Gravel, Diabetes, &c, &c.
DR CHASE has practiced in his profession for sixteen years, and in that time has spent two years in Florida and Cuba, for the purpose of gaining a correct knowledge of the most efficient remedies used by the various tribes of Indians of that country, and by great expense has gained many valuable secrets which have heretofore been unknown to the world
In Cancer he claims superiority over all other Physicians of the age, for he never fails to perform a cure when taken in a proper stage
His mode of curing Cancers is by the application of a plaster which is strictly vegetable, and will have no effect upon the healthy flesh and in no case uses a knife as does Dr Greene, of Boston
He also boldly asserts that he can tell every individual their disease and location of their pains, and describe their feelings in almost every case, more minutely than they can possibly themselves
Dr Chase is not a Clairvoyant but conducts his examinations on a strictly scientific principle, and will challenge any professed medium for a test examination.
Office hours from 9 A M. to 8 P M Examinations free Office at residence No. 54 Hammond Street.

THE SINGER NEW FAMILY
SEWING MACHINE.
THE superior merits of the "Singer" Machines over all others, for either FAMILY USE or MANUFACTURING PURPOSES, are so well established and so generally admitted, that an enumeration of their relative excellencies is no longer considered necessary.
THE LETTER "A" FAMILY MACHINE,
hitherto manufactured by this Company, has gained and maintained the world over, and for years past, an unparalleled reputation and sale. But notwithstanding the excellence of this Machine, we have now to announce that it has been superseded by our
NEW FAMILY MACHINE,
which has been over two years in preparation, and which has been brought to perfection regardless of TIME, LABOR or EXPENSE, and is now confidently presented to the public as incomparably the BEST SEWING MACHINE IN EXISTENCE.
The machine in question is SIMPLE, COMPACT, DURABLE and BEAUTIFUL. It is QUIET, LIGHT RUNNING, and CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK never before attempted upon a single machine—using either silk, twist, linen or cotton thread, and sewing with equal facility the VERY FINEST and coarsest materials, and any thing between the two extremes in the most beautiful and substantial manner Its attachments for hemming, braiding, cording, tucking, quilting, felling, trimming, binding, etc., are novel and practical, and have been invented and adjusted especially for this machine.
CHARLES HALE,
SOLE AGENT,

AMERICAN LLOYD'S
Universal Register of Shipping.
35 Wall and 13 Broad Sts.
NEW YORK, Nov 24, 1866
To our Subscribers and the Public
Public statements having been made by late employees at this office, I beg to avow that it affords me no pleasure to reply to them, it being most desirable to avoid all controversy in matters of fact which are generally obscure to the public The American Lloyd's Register of Shipping was originated by me, and for all expenses incurred in the publication I was solely responsible I never consulted my employees in relation to the management of the work, nor did they incur any responsibility. They remained in my employ since 1858, receiving their compensation for their services—They now discover that I have established the work at my own expense and application, and demand that I should consider them as equal proprietors with me, which I justly deny, as I permitted their names to remain in the copyright at their request, but said copyright was never perfected I did so to give them notoriety as being connected with me as surveyors, and to aid them They are issuing circulars purporting their intention to publish a rival publication, and are using the names of Marine Insurance Companies to bolster up their fraudulent intentions, and representing their inspectors as a Committee of Direction which is a "myth" The public are well aware that the Marine Insurance Companies of New York are respectively guided by their own Inspectors—such is the language of the President of the Atlantic Insurance Company, and also the other Marine Insurance Companies now in existence in New York—always giving them the precedence, or at least, they pretend to do so to keep peace in each respective Company. The Marine Companies of New York, since the publication of the Register, have subscribed to it, using it as a book of reference, and it was approved by the Board of Underwriters in 1857 Anthony B Nelson, Esq, President, and Elwood Walter, Esq, Secretary. I certainly consider the pretensions of my late employees and their confederates, fraudulent illusory, and unfounded THOS D. TAYLOR

We, the undersigned, being familiar with the AMERICAN LLOYD'S UNIVERSAL REGISTER OF SHIPPING, conducted by Thos D Taylor, Jas Kearney and Robert Harding do approve and recommend the same as worthy of full confidence and support of the mercantile community.

Important to Lumbermen
AND
Owners of Hemlock Lands.
THE AMERICAN PATENTED IMPROVEMENT TANNING COMPANY of New York own the exclusive right in the United States for the manufacture of an imperishable 'EXTRACT' from Hemlock Bark for tanning purposes. The Bark Extract is now extensively used among Tanners and the demand for it is rapidly increasing It commands a ready sale in the Boston, New York and Philadelphia markets at sixty cents per gallon The appliances for manufacturing are simple and not expensive, costing but little more than the ordinary leaches used by Tanners By this process 1½ cords of bark may be reduced so as to concentrate the entire strength into forty gallons of Extract, without in the slightest degree injuring its tanning qualities and as a cost not exceeding one dollar per cord. The saving in freight alone, between the transportation of the Extract and the Bark, will range from six to eight dollars per cord so that any one who may get out but three hundred cords of Bark per year may save from two thousand to twenty-five hundred dollars in the difference in freight.
The Company does not propose to sell Territorial rights, but will grant exclusive privilege to manufacture in certain localities charging a small royalty per gallon on the amount manufactured.
The Company will send competent men to superintend the construction of works where parties desire to enter into the business, and to instruct in the manufacture of the Extract.
As a guarantee of success to parties entering into this business, the Company will contract to take all the Extract manufactured under their process at fifty cents per gallon, delivered in Boston or New York.
Parties in New England desiring further information as to terms &c may call upon or address Mr THOMAS W JOHNSON, General Agent of the Company at the American House in Boston, where models of the apparatus may be seen, or
CHARLES HALE, Bangor, Agent for Maine

TELEGRAPHIC.

Despatches to the Evening Times

NEW YORK, Dec 14

The Herald's special Washington despatch has the following
"From sources of information unusually well informed, I learn that the Treasury Department does not propose to keep down the premium of gold below 40 per cent at present, as the conversion of 7 and 3 10th notes would be nearly impracticable with any less premium
The owners of seven and three tenths notes cannot convert at present prices without a loss of over one per cent The low rates of interest on money in London, Paris and Frankfort and the increasing supply received here, are evidence that balances will be left on this side for employment here, thus giving ease to the New York
Mr Blaine's proposition to allow States to tax National Banks to satisfy war claims, appears to receive but little favor at the hands of the majority of Congress

NEW ORLEANS, Dec 14

The question of the punishment of the rioters of July will come before the Congressional Commission, and the official correspondence between Gov Wells and General Sheridan will be sustained
In August Gov Wells verbally asked General Sheridan for military assistance to make arrests Gen Sheridan did not act — Gov Wells then wrote to Gen Sheridan, assured that he had no force at his command, but when he had he would comply The Governor waited, and no action being taken by the General, he renewed his request and stated that unless the General complied he Wells, would raise six regiment of colored militia to enforce arrests
Gen Sheridan replied on the 12th of September that "General orders No 41 and No 3, emanating from Gen Grant, are, and will be enforced in my command when properly brought before me, for the purpose of satisfying the ends of justice." The assurance of Gen Sheridan has prevented action by Gov Wells

WASHINGTON, Dec 14

The gentleman who reported to the police headquarters that he was robbed of $47,000 on the railroad between New York and Washington was Caleb Lyon, of Lyonsdale, formerly Governor of Idaho. The money belonged to the Government, Mr Lyon being on his way to this city to settle his Indian accounts

A DISTRESSING CASE OF CARELESSNESS The Pittsburg Gazette says
The most distressing case of accidental poisoning that we have been called upon to record for a number of years took place at Allegheny city on Monday night The circumstances surrounding the melancholy affair are about as follows—For some time past an infant daughter of Mr Crawford, residing in the fourth ward Allegheny city, had been suffering from some disease peculiar to childhood. On Monday night the infant became very cross and peevish, and in order to quiet her Mrs Crawford despatched an elder daughter up stairs for bottle of Mrs Winslow's soothing syrup, that occupied a place with a number of other vials of medicine on the bureau The little returned and handed her mother a bottle containing, as they supposed, the syrup asked for Without hesitating a moment, Mrs Crawford filled a large teaspoon with the medicine and gave it to the infant The child became quiet immediately afterwards, and the mother deposited it in a crib A few moments after she raised the child in her arms, but judge her horror when she discovered that the form of the little one was cold and rigid, and that a clammy death sweat had gathered on its brow She hastened immediately to where she had left the bottle from which she had taken the medicine, and found that instead of the harmless syrup she had given her child an immense dose of laudanum—Three physicians were sent for immediately, and their united efforts were used to restore the child to consciousness, but it was in vain, Death ensued in five hours after the narcotic had been administered

WASHINGTON, Dec. 13

President Johnson gave a flat refusal this morning to two New England Democrats who waited on him with a "slate" of appointments, and gave them to understand that he had already done more in that line than was now agreeable. The disinterested politicians of course now denounce him as false to the Democratic party

Colored Suffrage in the District of Columbia Reconstruction of North Carolina.

WASHINGTON, Dec. 13

The long contest in Congress over the suffrage in the District of Columbia is practically ended, and at the next election in Washington all colored men will be voters The bill passed by the Senate this evening provides for universal suffrage, without respect to race or color In this respect it does not differ from the bills passed by the House last winter It provides for the registration of all voters, and disfranchises, not only all who remained here and openly sympathized with the rebellion
The North Carolina movement, to which allusion was made in last night's despatches, was fully developed this afternoon. The bill drawn up by the gentlemen interested was presented in the House by Mr. Stevens, and referred to the reconstruction committee. It is very sweeping in character. The existing State government is declared void, and provision is made for a convention at Raleigh, on the 20th of May next, to form a new constitution.
All citizens, without distinction of race or color, who can read and write, or have one hundred dollars' worth of property, are to participate in choosing delegates, who must be able to take the oath heretofore given. The bill excites discussion in congressional circles already, and the movement is regarded as the strongest yet made in the Southern States in the interests of loyalty.—[Sp. to Boston Adv.

Religious Intelligence.

—A writer in the Portland Press suggests that some of the money remaining in the hands of the Executive Committee of the Relief Fund be given to each of the religious societies which are trying to rebuild churches
—The new Methodist church at Brunswick was dedicated on Tuesday of last week A concert by a quartette club of Providence was given the evening previous, and a levee was held on Tuesday evening
—Rev C B Penny of Augusta baptised twenty-five and admitted twenty-eight persons into the Free Baptist Church of New Gloucester on Sunday week
—The discourse of Rev Dr Tefft at the First Parish church, in behalf of the Portland Benevolent Society, was followed by a contribution of $135 50—[Star
—It is contemplated to build a new church in Bowdoinham another season by the Universalist Society
—Rev. A F Beard has withdrawn his resignation and will remain pastor of the Central Church of Bath.
—The National Unitarian Convention, at its late meeting at Syracuse, recommended the formation of local conferences Accordingly the Norfolk county (Mass) conference was organized Wednesday last week, at Dedham The Worcester county conference was organized the same day at Dr Hill's church in Worcester, and the New York and Hudson River conference was organized on Thursday in New York City
—The Baptist State Convention of Texas has resolved to co operate in the education of the freedmen of that State It proposes to raise $100,000 for the endowment of a colored normal school at Independence—a village in Washington county, about eighty miles from Austin, and the seat of Baylor University
—Rev Dr Chapin's new church, which is situated at the corner of Fifth avenue and Forty fifth street, New York, was dedicated last week Monday afternoon A large number of prominent clergymen were present
—George H. Stuart, Esq, of Philadelphia, formerly at the head of the Christian Commission, has recently returned from Europe, where he had addressed many large bodies, ecclesiastical and others
—The Christian denomination in this country numbers 2200 churches and a total membership of 180,000 Its quadrennial convention was held recently at Marshall, Michigan
—There are 40 Baptist churches in the city of Philadelphia, with a total membership of 12,832
—It is stated that the recent Roman Catholic Fair in Boston yielded over $28,000

Items in General.

There is in Philadelphia a high school for colored boys and girls, well endowed, where are taught the Latin and Greek classics, mathematics, history, geography and composition The great object is to fit and prepare the students for instructors of the race Their performances, says Mr Greeley, who attended the school for two days, were equal to any school of whites of the same grade
—A story is told of a well dressed man who visited a gaming house in Brenham, Texas, who, after losing all his money, bet his hat That went the same way. His coat went next, then his boots and socks, and so on, one thing after another went, until his last article disappeared, and finally he left the house with no covering but drawers
The Richmond Examiner is responsible for the statement that there is an old gentleman in Pocahontas county who has on his hands the blood of twenty-one hundred deer, seventeen hundred of whom he shot with the same gun He has also been the death of many bears, panthers and other wild beasts
Fond du Lac Wis, has nineteen mills engaged in the manufacture of lumber, shingles and laths, which have turned out during the past year about 53,000,000 feet of lumber, 100,000,000 of shingles, and 7,000,000 laths—the total value of which amounts to some over $900,000
The melter of the United States Mint has made a discovery which will save the government $2,500 out of every million converted from gold dust to coin The new process will not be made public.
The owners of a distillery lately burned at Milwaukie, claim its value from the government, on the ground that the fire was the result of the negligence of the revenue agent in charge of the building
A St Louis saloon-keeper named John McNamara, while partially intoxicated on Sunday night, threw a small single barrelled pistol across the room, feeling vexed with his wife for a small matter. The pistol struck a chair and was discharged, the ball striking his wife, killing her instantly
Three of the Newburyport cotton mills—the Bartlet, James and Ocean—are to have new machinery from England. Some portion of the cotton machinery can now be imported cheaper than manufactured.
The condition of the rebel counties in Missouri has been so long and notoriously bad that Governor Fletcher has not surprised any one in declaring martial law—We hope he will carry out his promise to make Missouri as safe for loyal men to live in as Iowa or Illinois—Tribune.
A correspondent of the Louisville Journal treats at some length on the best way to prevent hydrophobia A wag in reply, suggests that he once prevented a case of this dreadful malady by getting on a fourteen rail fence and staying until the "dog" left.
Reading in the paper that somebody had declined being an Overseer of the Poor, Jenks said, "I wish I could do that. All my life I have been looking after and seeking how to support myself."
The editor of a Sydney newspaper has a standing notice that he cannot be spoken to by visitors unless paid for his time.
An auctioneer's clerk being directed by his employer to advertise a copy of a fresco by Raphael, wrote: "A fresh cow to raffle."
What is the difference between an editor and his wife? One sets articles to rights, and the other writes articles to set.

SATURDAY, DECEMBER 15, 1866.

SECURING LOYAL GOVERNMENTS AT THE SOUTH. It is apparent that the loyal people of the country are fast coming to the conclusion that the only practicable solution of the difficulty at the South, is for Congress to put aside the present government of the rebel States, which were allowed to be instituted rather as provisional governments, without the direct consent of Congress, and in whose construction the *loyal* men of the South, white or black, had no controlling voice. Those loyal men, both white and black, are now imploring and even *demanding* of Congress that *their* rights and interests shall be regarded in the governments of their States. They say, in fact and in truth, that they have and can have no *safety* even, if the late rebels are allowed to rule those States,—especially if, by being admitted to Congress the rebels are allowed to acquire such power in the Union that no future change *can* be made in the organic laws by which suffrage is regulated. Now is the time to secure such a reconstruction of the rebel States as shall "guarantee Republican governments" to them all—as shall establish the rights and the security of all loyal men in those States, and make impossible any future assault upon the Union by the men who have once tried treason upon a stupendous scale and been conquered. Is not the nation morally, if not legally, bound to protect and establish the rights of the Southern Unionists?—of the men who stood by the Government bravely and nobly when all around them was rebellion and treason? Should we not be manifestly derelict to our duty if we permit them to be brought permanently under the iron and vindictive rule of their old enemies, now doubly incensed against them by defeat? *Can* we leave them in the power and under the feet of these enemies, and be ourselves guiltless of wrong to the cause of freedom, of justice and of loyalty to American principles? We think not—and we believe a large majority of the people of the North think not. Close estimates have been made showing that if suffrage is extended as it should be, to the four millions of colored men in the South, there will be an actual and strong majority of good Union, loyal Republican voters in the Southern States as well as in the North—that is, the *whole* Union is loyal and Republican in sentiment, and would show itself so at the polls, if the whole people were emancipated and had their rightful suffrage. Is it not the duty of Congress to see to it that the people of the South are emancipated? We think it is. The Central Executive Committee of the Republicans of Louisiana have sent an address and a series of resolutions to Congress. The former closes as follows:

"We ask you to give us a government in this State in which only the loyal, both black and white, shall participate. And we do solemnly declare that in our opinion, there can be no peace, no security, no real liberty in Louisiana until such a government shall have been established. While as we are to forgive the past offences of those who, having sinned against the Government, are now sincerely repentant, we are at the same time opposed to any compromise with its known enemies. We do not believe in submitting constitutional amendments to rebel legislatures who glory in having served the defunct Confederacy. We protest against the slow advance of the present State government of Louisiana. We ask you to abolish it, and substitute one composed of those who require no Executive pardons before they enter upon the duties of their office. Do these things and the loyal people of Louisiana will ever hold in grateful remembrance the members of the XXXIXth Congress."

We find the following in a recent number of the Lewiston Journal.

That Congress is about to reduce—or we might say, elevate—the late insurgent States to the practical condition of territories, there are very strong indications. The refusal of the Southern States to ratify the amendment leaves this as the only step now feasible. The adoption of this step will put the South in just the condition required for safe, speedy and full reconstruction. This new legislation will unhorse the present functionaries of the Southern States, and destroy the political power of the present rebel leaders of the South. It is really the true method of reconstruction, and, if it had been adopted by President Johnson at the outset, the Southern States would, ere this, have been loyally represented in the National Legislature.

Our advices from Washington render it very probable that the present Congress will relieve of its obligations to the South with reference to the constitutional amendment, by the bold refusal of the Southern States to sanction that amendment, will administer to the Southern States a bill which will be radical and sure, for the cure of a dangerous disorder. Even Mr. Raymond—who prides himself on his conservatism—plainly indicates his purpose to unite with the majority in favor of the Territorial reduction."

UNIVERSAL SUFFRAGE ADOPTED. The passage in the Senate, on Thursday, of the District of Columbia Suffrage Bill, by the heavy vote of 32 to 13, marks the full adoption of the suffrage policy by the Republican party and the people. It declares that the principle of Equal Rights to all men embraces the enfranchisement of all, and that hereafter that doctrine is engrafted upon the Republican creed. That it will be applied to the recent rebel States before admission to Congress we have now very little doubt; and to be consistent, its adoption should also be required of every Territory asking admission as a State. There is no reason why Colorado should not be required to adopt it.

In regard to the bill passed on Thursday, which gives the suffrage to all men in the District, a despatch says that the Washington people manifest no excitement, but quietly acquiesce in the establishment of the principle. An amendment to attach the qualification of reading and writing to the privilege was voted down by yeas 11, nays 34. The President has threatened to veto any bill for universal suffrage, but it will be seen by the vote that his veto will be as powerless as his party. The vote in the House will probably be even stronger than that in the Senate.

The effect of the bill offered by Senator Edmunds, regulating the tenure of office, is to give the Senate a power in dismissals as well as appointments. The President may, in the recess of the Senate, suspend any officer guilty of official misconduct, or legally disqualified and incapable; but he is bound to report the fact to the Senate for its advice, within twenty days after its first day of meeting thereafter. If the Senate dissents, the suspended officer shall resume his duties. In much the same manner the President may fill vacancies by death or resignation. The bill, as Mr. Edmunds took the trouble to explain, was not conceived in hostility to the present Administration, but as a proper safeguard of republican liberty at this or any other time.

ACKNOWLEDGED. The pirate Shenandoah burned whaleship Harvest, of Honolulu, during her raid in the Pacific last year. She was sailing under the Hawaiian flag, and a statement of the affair was sent to the British Government, with a bill for the ship, which has been paid. This would seem to be an acknowledgment that the Shenandoah was a British vessel.

THE CAPTURE OF SURRATT. The story of the wanderings and final capture of John Surratt, of which we have printed the details, is strangely interesting. The wretch, though not captured until nearly twenty months after the commission of his crime, was scarcely ever, during all that time, out of the sight of justice.

An obscure person, known to few, and those for the most part likely to keep his secret; supplied with money, as now appears, both in this country and in England by secret friends, or more probably by persons who were privy to the assassination plot, and whose own safety made it important that Surratt, the chief agent in their plot, should be put safely out of the reach of justice; hidden away, finally, in the least likely place in the world, as a private in the Pope's army, he was yet totally unable to conceal himself from the slow but sure pursuit of justice, which followed him with the relentless eyes of a fate.

The man's desperate character is well known in the manner of his escape from the Papal guards; he leaped down a precipice of thirty feet. Up to the time of his seizure at Veroli he does not seem to have comprehended his danger. He did not know how greatly the world abhorred his crime. In Canada and on the steamer he appears to have boasted, to confidants chosen very much at random, of his share in the assassination—though even there his admissions were made with a singular mixture of low cunning and ferocious exultation. In Rome, when he was accosted by his Maryland acquaintance, he could not help, apparently, bragging a little of his exploit.

How came he to select the Roman army as his place of concealment? It is scarcely probable that he, an ignorant person, knew that we have no extradition treaty with the Papal government; it is more likely that those friends or employers of his who furnished him with money also shrewdly suggested as his refuge a territory where, according to the forms of law, he could not be suddenly seized, and where he would have consequently the greatest chances of escape.

But his or their calculations were wrong; Surratt found himself without notice cast into prison. Then the desperation of the man's nature began to show itself. He escaped by a formidable leap; wounded, he still ran long; he lay in a small hospital for a few days; but again took up his flight, and sailed for Egypt. But by this time he was running a race with lightning—a race in which he was certain to lose; and he only touched the soil of Egypt to fall into the hands of justice.

He is, as we supposed, to be sent home in a man-of-war. We trust his trial will reveal the whole secret of the conspiracy in which this wretch was one of the chief agents. The investigation should be thorough and we doubt not it will be.—[N. Y. Post.

The Providence Journal says:

His confession, if it could be relied upon, would be of great value, and might criminate higher offenders than himself. From his character there is little doubt that he would confess; the difficulty would be in settling upon the amount of credit due to his statements. It is desirable, for judicial and for historical reasons, that the whole course of that great crime should be made known; who planned it and who instigated it, as well as who committed it. From no one but Surratt can this information probably be obtained. If his testimony might not be received with sufficient confidence to warrant a conviction upon the strength of it, it would still be valuable, and might be worth the price of his vile life; or, he might be able to point the attention to other testimony, that would corroborate his own, or that, independent of it, might further the ends of justice in a higher direction.

EASTERN RAILROAD CONSOLIDATION. A writer in the Portland Argus has the following:

We are glad to see the subject started of a consolidation of the Maine Central and the Portland & Kennebec Railroads. Although during the construction of these roads and the earlier part of their operation, their interests appeared to be diverse, yet subsequent events have demonstrated that they lie in the same direction. Both tap the centre of the State—both run in nearly parallel lines—and both are and must continue to be great lines of passenger travel. They are the best managed roads in the State; trains are run with more precision, cars are more commodious and comfortable, the road bed is in better order, than is the case with most other roads. As their terminus is and must continue to be in Portland, both are emphatically Portland enterprises, and are entitled to the consideration and favor of the people of this city to a corresponding degree.

By sweeping in a westerly direction from Danville Junction, the Maine Central can strike important centres of business, and by laying a third rail on the track of the Portland & Kennebec, come into the city on that track, making the commodious depot of that road the great centre for eastern travel. As the passengers of the Portland & Kennebec pass over the Maine Central from Kendall's Mills to Bangor, it will be seen that circumstances entirely beyond the control of the friends of both roads at the outset, now plainly indicate that protection and prosperity for both enterprises require concentration and union of effort. A consolidation will accomplish this and undoubtedly in a short time make the property the best railroad paying property in the State. No competition can affect it—it will become the Grand Trunk Railroad of Maine, doubled-up, to receive the business of all the diverging roads on the north and southeast.

The Maine Central and Portland & Kennebec, consolidated, with an independent avenue into Portland, will require facilities for ticketing passengers through to Boston at a cheap rate. To do this they must have a line of steamers connecting at such an hour that passengers may arrive in Boston before eight o'clock in the morning.

United States Marshal Gooding has made all the arrangements for the reception of John H. Surratt, who will be brought directly here and not landed at Fortress Monroe. When he will be tried depends a good deal upon the arrival of witnesses to whom he has confessed his guilt. The Court before which he will be tried consists of Chief Justice Carter of Ohio, Judge Olin of New York, Judge Fisher of Delaware, Judge Wiley of District of Columbia and Hon. E. C. Carrington, United States District Attorney of Virginia. The jury will have to be impanelled from the District of Columbia and vicinity, who may, perhaps, also supply him with counsel. It is hardly probable that he will make any confession unless convicted and sentenced to be hung.—[Cor. Boston Journal.

A quiet but well organized movement is being made to bring out Mr. Colfax as the Republican candidate for President, with Senator Howard of Michigan for Vice President.—[Cor. Boston Journal.

THE PRESIDENT AND THE APPOINTING POWER. The House debated at length today the bill in relation to appointments in the civil service, and a disposition was manifested not to proceed to such extreme lengths in curtailing the power of the President as some members have proposed. It was very properly suggested that some of the resolutions that have been introduced might, if enacted, re-act on the dominant party after March 4th, 1869. No formal vote was had, and the bill lies over until to-morrow.—[Sp. to Boston Journal.

CONCORD, N. H., Dec. 13th. A despatch from Littleton at 8 o'clock this evening says that the horse and wagon of the murdered man, George Maxwell of Franconia, have been found at Gorham, where the murderer stopped over Sunday with an acquaintance. From there he went on Monday morning by a freight train on the Grand Trunk Railroad to a station about six miles from Island Pond, where he left the cars and struck for the woods.

His pursuers are now at Island Pond, and have very nearly ascertained his whereabouts. Intelligence of the murderer's capture was hourly expected at Littleton.

SPECIAL NOTICES.

Universalist Levee.

The Ladies of the Universalist Society will hold their ANNUAL LEVEE at Norombega Hall, on TUESDAY EVENING, DECEMBER 18th.

Dr. Tebbet's Physiological Hair Regenerator

The wonderful popularity of this Preparation is unprecedented. It is becoming the standard article over everything of the kind, and is the only unobjectionable hair preparation in use.

It positively restores white, gray and faded hair.
It prevents hair from falling off, and often reproduces a new growth on bald heads.
Is free from all disagreeable odor.
It does not soil the finest fabric or skin.
Frees the head from humor and dandruff.
Has no equal as a dressing.
Without it no toilet is complete.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia.—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belch or of wind, water-brash and vomiting, and a great deal of what a person calls an all-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's seaweed tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two-thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrance of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely thro' the blood when the system is in this locked-up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all of the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from the thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond Street, New York, and 35 Hanover Street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1 50 per bottle or $7 50 the half dozen. Mandrake Pills 25 cents per box.

GEO. C. GOODWIN & CO., 38 Hanover street, Agents for Boston. For sale by all druggists.

News from the Capital.

A "Congressional Prayer Meeting."

Reconstruction of Louisiana.

Congress Memorialized by the Loyal Citizens.

A Bill Introduced Providing Territorial Governments.

Southern Items!

WASHINGTON, Dec. 14.

About thirty Senators and Representatives met at the capitol last night and organized a Congressional prayer meeting with Senator Foster President and Representative Dodge as Secretary, to be held once a week.

Remarks were made by Senators Wilson, Wiley and Henderson and Representatives Patterson, Dodge, Maynard and Grinnell. The meetings are to be held without regard to denominational distinctions.

A memorial of all the clerks in the executive department asking for an increase of salary was presented in the House to-day.

The House military committee have under consideration the bounty bill reported last session, giving one hundred dollars a year to every soldier for his term of service, deducting the local bounty. The law which was passed, it will be remembered, gave one hundred dollars to soldiers who had served over two years and fifty to them who had served under that time.

Mr. Shellabarger to day presented a memorial from persons representing themselves to be loyal citizens of Louisiana, and representing the sentiment of the loyal people of the State, asking Congress to immediately take such action as will supercede the present political organization in Louisiana by such as will be loyal to the general government, and secure to the loyal people of Louisiana protection in their lives, liberty and property. They say the present organizations are not Republican, because a majority of the citizens are disfranchised, and because they do not give a delegate and equal protection to all of them, and they are not loyal because they are controlled by those who were employed in the rebellion against our government. In the explanation accompanying the memorial it is said, under date of December 6th, that it was originally written and published by the loyal citizens, and has their almost unanimous approval.

About seventy copies in possession of as many gentlemen have been scattered over the State for signatures, and the names thus obtained have all been attached to this document. It has been presented to nearly all of the most influential loyal citizens, and about one-third of them signed it—the others being deterred from doing so by regard for their personal interest and safety. The memorial has not been presented to the colored citizens for their signatures, as it is deemed best that it should be signed mainly by representative men.

The papers were referred to the select committee on the New Orleans riots.

The passage of the suffrage bill occasions rejoicings among the colored citizens and a public demonstration is proposed.

The New Orleans Riot committee consists of McCulloch, Shellabarger and Elliot, who are now ready to start and investigate.

There are many protests against the discharge of females from the Treasury, but the Secretary adheres to his decision.

Gov. Holden and others express satisfaction with Stevens' territorial bill yesterday, and return home to help pass it.

Representative Julian introduced a bill providing for civil governments in districts lately in revolt. All the machinery of territorial governments is provided, and loyal male citizens who have not voluntarily carried arms may vote for delegates to a convention to form a State government.

The Mexican Minister has received advices, through Escobedo, of the probable occupation by the Liberals of San Luis Potosi, the Mexicans deserting the Imperial forces.

Also, reports of the evacuation of Durango.

NEW YORK, Dec. 14.

Gold closed 1,37⅜.

The Secretary of the Treasury is expected in this city in a few days.

Secretary Stanton is still here.

Three of the victims of the fearful fire which occurred yesterday on the 2d avenue, died this morning.

The Treasury Department will commence to disburse $8,500,000 as interest on the 7-30 notes.

Call loans were done at 6@7 per cent.

Government securities continue depressed, but the closing prices were lowest today.—The stock market is generally lower at the last open board, but after the session there was a firmer tone and rally from the lowest point of the board.

RALEIGH, N. C., Dec. 14.

To-day the Senate refused to take action on the resolutions setting forth the loyalty of the people of North Carolina, but referred them, with another resolution introduced by Mr. Jones of Wake, declaring an earnest desire to restore harmony and fraternity among the people, and for the reconciliation of the whole country.

ST. LOUIS, Dec. 14.

A monster petition, 52 feet in length, containing the names of all the prominent citizens of New Mexico, has been forwarded to Washington, praying for an increase of the military force.

Gen. Grant and son arrived today.

NASHVILLE, Tenn., Dec. 14.

The work of disintering federal dead in cemeteries in and about Nashville for re-interment in the National Cemetery at Gallatin, six miles from this city, was began today.

[By Cable to Associated Press.]

NEW YORK, Dec. 14.

London, 14th. A telegram from Frankfort this morning states that there is rather more steadiness in American bonds with sales at 75½.

Liverpool, 14th. The market for petroleum is steady at 1s 6d for Pennsylvania refined.

KANSAS CITY, Dec. 14.

The trial of Scott, Cutler & Co. developed proofs of their crime.

The Colorado Legislature convened on the 4th inst. at Golden City. Elbert Hold was elected Speaker of the House.

CINCINNATI, Dec. 14.

The City Council passed a resolution by a vote of 21 to 10, directing the City Solicitor to order the Ohio & Mississippi Railroad to vacate Front street before June 1st. This virtually destroys entrance to the city and forces it to seek another channel.

MILLEDGEVILLE, Dec. 14.

The Legislature adjourned to-day sine die. Presiding officers of both Houses in their closing speeches expressed great determination not to succumb to unlawful demands. The sentiment in the Legislature seems to be decidedly in favor of a territorial government rather than the acceptance of the constitutional amendment on similar terms. The speaker of the House bade the country hope that the trial of fanaticism would exhaust itself and constitutional principles yet prevail.

—The President of the Senate urged all to obey the laws and cleave to the Constitution; but human forbearance has its limits, and the worm would turn if trodden upon! (Great applause at these sentiments.)

MONTREAL, Dec. 14.

D'Arcy McGee publishes a letter today, denouncing the policy of Hon. Geo. Brown towards the United States, and declaring the United States government wish for a new treaty with Canada, and will allow the latter better terms than she formerly enjoyed.

FORTRESS MONROE, Dec. 14.

A gale is blowing from the north and northwest, outside.

TORONTO, Dec. 14.

The mercury is 14 degrees above zero.—No snow.

Monetary Affairs.

NEW YORK, Dec. 14. SECOND BOARD—Stocks heavy; Sixes 1881 112; U S 5-20s 1862 coupons, 107⅛; do. 1864 105¾; do 1865, 105⅝; do. do. new issue, 108¼; U. S. 10-40s, 99⅝; U. ST. LOUIS, Dec. 14. Flour better and more active, with prices unchanged. Corn dull and heavy—new yellow 92.

Thirty-Ninth Congress.

SECOND SESSION.

WASHINGTON, Dec. 14.

Senate.

Mr. Sumner opposed the Nebraska Bill, as opposed to human rights.

Mr. Wade defended it.

Mr. Yates urged action for Nebraska.

In reply to Mr. Sumner, Mr. Wade remarked, that he would feel bound to admit the Southern States, if they adopted the amendment in reasonable time.

Mr. Sumner said he had made no such agreement and would vote for no State which made a distinction of rights on account of color.

The question was put on taking up the bill, and resulted as follows—Yeas 21, nays 11.

The bill was read. It declares that Nebraska, having asked for a State government, is to be admitted to equal rights.

Mr. Brown moved that it be amended by declaring the act to take effect only when all distinction of race or color was abolished.

Mr. Wade further advocated it, saying that the population was 88,530, with 9130 votes cast.

Mr. Sherman said he voted for the constitutional amendment, with the distinct understanding that they were to be the terms upon which the South was to be restored to the Union. If the Southern States accepted the amendment this winter, he would favor their admission, and the people would hail the result with joy; but if they rejected these terms, and the issue were presented whether the South should rule us, or we should rule the South, he would be for recognizing its State governments on the basis of loyal voters;—he would never consent to see the South come here with increased political power. He regretted that the President had used his influence against the amendment. In so doing, he did not believe Mr. Johnson had shown himself a friend of the South. He saw by the papers that Arkansas has rejected the amendment on the ground, among others, that it was not proposed by a constitutional Congress. The South, by her obstinacy, might yet have to learn by bitter experience whether this was a constitutional Congress or not.

Mr. Brown did not believe his amendment, if adopted, would delay admission of the State 60 days. So help me God! (said Mr. Brown) I will not vote for the re-admission of another State that denies the right of suffrage to black citizens.

Pending the consideration, Mr. Sprague called up the joint resolution concerning the survey of the Isthmus of Darien. Passed.

After debate the yeas and nays were taken on adjournment from December 20th to January 3d for the holidays—Yeas 27, nays 16.

Mr. Poland presented a resolution to pay the widow of the late Jacob Collamer the increased amount due the deceased.

Mr. Wilson introduced a bill to authorise the establishment of a library in Washington for the use of Government employees. Ordered printed.

Mr. Ramsey introduced a bill making Agricultural College scrip receivable for pre-emption fees. Referred.

Mr. Poland offered a resolution directing the Secretary of the Senate to pay to the widow of the late Solomon Foote the amount due the deceased under the act increasing the compensation of Senators and members.

Mr. Sprague introduced a joint resolution instructing the Secretary of the Navy to direct the naval officers at Panama and Aspinwall to aid those engaged in the service of a new route to the Pacific through the Isthmus of Darien, whenever practicable without expense to government.

Pending the consideration of the above the Colorado bill came up.

Mr. Poland hoped the bankrupt bill would be taken up. This led to debate.

Adjourned to Monday.

House.

Mr Kasson's bill authorizes the construction of a telegraph line from Washington to Boston, via Baltimore, Philadelphia, New York and Springfield, to be in operation in six months, under the management of the Postoffice Department, and open to public use at reduced rates.

Mr Washburn's telegraph bill is similar to Mr Kasson's but extends the line only to New York, and charges the public half a cent per word. No message less than ten cents.

It appropriates $50,000 to carry out the act.

The vote on the suffrage bill for the District of Columbia was 118 to 46. There was no excitement.

Mr. Wentworth made an amusing review of the President's speeches, and said he was willing whenever they adopted the constitutional amendment to agree to a universal amnesty for universal suffrage, but not a moment before.

The committee on pensions were instructed to inquire into the expediency of amending the pension laws so as to provide that in all cases where it is proved to the satisfaction of the commissioner of pensions that any soldier during the rebellion died in any rebel prison, it shall be for all purposes of pensions in such case be claimed prima facia evidence that such person died of disease contracted in the service and in the line of his duty.

The committee on claims reported a joint resolution to pay Ober, Nausen & Co., merchants of New York, $60,000 for compound interest notes lost at sea. After discussion the joint resolution was passed to 1867.

The House proceeded to business on Speaker's table, and concurred in the Senate amendments to the deficiency bill.

The House took up the Senate bill giving negro suffrage in the District of Columbia and passed it without discussion under the previous question by a strictly party vote.

The House then went into a committee of the whole on the President's message, and was addressed by Mr. Wentworth, after which the House adjourned till Monday.

A NEWLY MARRIED COUPLE MEET WITH A VIOLENT DEATH. A short time since Mr. Wm. B. Rugg, a young man thirty years of age, reached Milwaukie from New Hampshire, with the intention of settling down as a farmer in the interior of the State. On Thursday, the 29th ult., he was married to an estimable young lady living near that city. Having purchased a span of fine horses, the couple started on Saturday for Oshkosh, on a wedding tour, intending at the same time to select their future home.—Full of bright anticipations of the future, the young couple chatted and laughed as they sped over the road, never fearing danger of any sort. When about fifteen miles from Milwaukie, however, the horses took fright and ran furiously down the road, throwing both Mr. Rugg and his bride from the carriage, almost instantly killing Mr. Rugg and fatally injuring his bride.

LOCAL AND OTHER ITEMS.

OUR RAILROAD. Several announcements have been made recently by papers in this State, and by irrepressible letter-writers to papers out of the State, in relation to the building of the railroad from this city up river; but they have all been made without authority. When matters are in readiness for the commencement of the work we shall be able to state the facts; but at present we are not authorized nor warranted in making any positive announcement. All we can say is, that the enterprise is now in a more hopeful condition than it has ever before been; and we are very confident that actual operations will soon commence.

—In the Police Court, yesterday, Darius Gross, convicted of molesting the Bower street schools, was fined $4.13, and in default was committed to jail for thirty days.

HOLIDAY VACATION. The holiday vacation of the annual schools will commence on Wednesday next, Dec. 19th, and continue until Thursday, Jan. 3d.

—We have sympathy with Bro. Quimby of the Banner. He thinks some of his correspondents are unreasonable when they request him to be "very particular" to have their articles correctly printed. He gives the following description of one where the manuscript apparently commences thus:

Br. Quanbog—"Yeplt zankny song frog dog pauget poppet so lonir," &c. It closed with—"Be careful in reading the proof as I write in haste." This last sentence we studied out after an hour's trial at three sittings.

We have lately adopted the rule that where we cannot read the first five lines of an article in five minutes the whole goes into the waste basket. We recommend the same to Bro. Quimby.

LUMBERMAN'S BANK. We should have stated, yesterday, that the bills of the Lumberman's Bank are now, and always have been, redeemed in Boston. Although the legal liability of the Bank to redeem its bills will expire next February, the President, Wm. H. Smith, Esq., assures us that every outstanding bill will be paid, whether presented this year, or at some future period.

—A temperance lecture will be delivered at City Hall to-morrow (Sunday) evening by Mr. E. W. Locke, a veteran lecturer belonging in Portland, who is known all over the country not only as a lecturer, but as a singer of original ballads of his own. He is said to be a character—generally drawing good houses. He is the author of some good and popular temperance and other songs.

—The river closed at this city on Thursday night the 13th—being five days later than the close of navigation last year. There is a good piece of skating near the mouth of the Kenduskeag, and the boys are hoping that the snow will hold off for some days yet.

—We are informed that Rev. H. A. Shorey, of the Congregational Society at East Orrington, has resigned his pastorate, the resignation to take effect on the 1st of March next. He intends to remove to one of the Western States, we believe.

—Our friends who may become cognizant of any local items of interest in the eastern part of the State will do us a favor by communicating them. Facts stated should be accompanied with the name of the writer.

—Application will be made to the next Legislature for a charter for a railroad from "the tide water at Winterport to the line of the Maine Central Railway." See advertisement.

—We are indebted to Mr. S. Berry for Liverpool papers of the 20th ult., per steamer at Portland.

A SINGULAR CASE. The Eastport Sentinel says that a pedlar recently driving through the town of Cooper, was stopped by a foot-pad who presented a pistol and demanded his money. The pedlar had a little girl riding with him at the time who seeing the state of affairs crept back on the top of the cart and dragged his overcoat up within reach from which he took his revolver and disabled his man. The Sentinel also says that a boy of fifteen living with Mrs. John Crosby stole a trunk containing $400 in gold and $300 in currency and cleared for St. Stephen, where he was afterwards arrested. He had hidden all but $50 of the money, however.

—The Belfast Age says there are now five Temperance organizations within the limits of that city—three Lodges of Good Templars and two Divisions of Sons of Temperance. Lodges—Belfast, No. 30, Geo. E. Brackett, W. C. T., meetings Wednesday evenings at Temperance Hall; Crystal Gem, No. 169, D. C. Ellis, W. C. T., Thursday evenings at Mathews Hall on the east side of the river; Merrimac —— Samuel Shorey, W. C. T., Thursday evenings at Maddocks Hall, Head of Tide. Divisions—Belfast, No. 182, Rev. T. P. Adams, W. P., Thursday evening at Temperance Hall. Phœnix, No. 130; —— Thursday evenings, Head of Tide.

—A portion of the inhabitants of the eastern section of Frankfort give notice that they intend to apply to the Legislature to be set off to Winterport, and a portion of the inhabitants of Prospect give notice of a similar application to be set off to Stockton. If these are successful, the result would seem to be the uniting together the residue of the two towns of Prospect and Frankfort into one town—as the Belfast Age says.

—On Thursday, in Lewiston, a fire destroyed the carpenter shops of Whittemore & Co. and J. S. Hardy & Co., the paint shop of Burgess & Fenderson, and the cabinet shop of Howard & Watson. The whole loss according to the Journal is about $4000. If there had been a high wind at the time, the central part of the city would have been in danger of a large conflagration.

—The Lewiston Journal says that the fiend who afflicts Durham, or more especially "Durham stock," is still active. Since the last report he has made several unsuccessful attempts to enter barns of that town, but alarms drove him off. It is said that an arrest has been made of a suspected party.

A LARGE OPERATOR. The Ellsworth American says that Mr. Tisdale, who has been a successful lumberman on the waters of the Union river for about thirty years, has manufactured during that time 280,000,000 feet of lumber—a small portion being on the Naraguagus and Machias waters.—He has manufactured in one year 26,000,000 feet.

—The Ellsworth American says that Rev. N. M. Butler has been secured to supply the pulpit of the Baptist meeting house in that village, and will commence his labors on Sunday next. Rev. C. G. Porter goes to Camden.

—Mr. Addison Metcalf, of Lisbon Falls, if not "some pumpkins" of a man, appears to be a good deal of a squash. The Lewiston Journal says he has raised and sold fifteen thousand pounds weight of those delightful vegetables the present season.

—The tannery formerly owned by Edw. Storer, at Yarmouth Corner, was mostly destroyed by fire one night last week, together with all the contents. There was an insurance (on the building only) of $2000. It is supposed the fire was set.

—The Aroostook Times says the sum of $1500 in gold was received in payment for duties on foreign goods by Mr. Vandine, Collector at Houlton, during the month of November. This the largest amount ever collected there in any one month.

—The Rockland Democrat reports the burning of a new barn belonging to Mr. Pillsbury Johnson near that city; also a store at South Thomaston owned by Mr. H. S. Sweetland, and occupied by Mr. C. M. Wiggin.

—The Good Templars of Ellsworth have arranged for a course of temperance lectures during the winter. The first was delivered two weeks ago by Rev. Mr. Savary, pastor of the Unitarian society.

Eighteen vessels have been built in Waldoboro this year, and preparations are making to build twenty more next year.

Col. Charles H. Smith, late of Eastport, has been assigned to the command of the 20th regiment United States Infantry, headquarters at Camden, Ark.

—A boy named Michael Donovan was drowned in Portland on Wednesday, from the breaking of the ice where he was skating.

—The steamer Eastern Queen on her last trip from Bath to Boston, broke her paddle wheel, but got into port, safely after some delay.

A HIGHWAY ROBBER DISABLED. It is reported that one day last week Mr. Bissell, a peddler well known to the traders here, while at Machias was counting his money, (about $1000) and signified his intention of going to Lubec that day. Among others who were present was a man named Sanders, who was connected in a stabbing affair in this place a year or two ago. Sanders on finding it was the man's intention to ride to Lubec with the money about his person, immediately left and secreted himself in the bushes along side the road somewhere between Machias and Lubec. When Mr Bissell rode along Sanders jumped from his hiding place and seized the reins with one hand and in the other he held a pistol aimed at Mr Bissell's head, demanding his "money or his life." Putting his hand in his pocket as if to hand over the money he withdrew it with a revolver and shot Sanders in both wrists. The wounds were quite severe making it necessary to have one hand amputated and the other will be useless hereafter.—Eastport Sentinel.

—Hayford's new Block on Custom House Square, is all finished and occupied. The basement story is occupied by Messrs. Carter & Atkinson as a meat market and provision store. The first floor above is occupied by Mr. C. C. Gregg, millinery and fancy goods, and by Dr. Pendleton; the next above by Messrs. Sawyer & Staples as an insurance office, and by Dr. Flanders; the third floor by the Belfast Social Club. The block is a handsome edifice and an ornament to the city.—[Belfast Age.

Mr Ransom, revenue officer at Pembroke, seized a double team and a quantity of liquors and cigars at that place on Wednesday last. The team was owned at Milltown.—Eastport Sentinel.

STORY OF A FENIAN PRIVATEER. Among the numerous stories of what the Fenians are going to do, the following is about the latest:

The good people of Newburyport will, perhaps, be surprised to learn that a Fenian privateer sailed from that port a few days since, on route for the Irish coast. Such is the fact, however, if we are to believe a Boston correspondent of the N. Y. World, who says the privateer in question is the schooner Estelle, of some 700 tons burthen (rather a large schooner) and is said to be armed with a rifled 60 pound gun aft, besides other destructive ordnance, and contains a picked crew of more than two hundred men, who have seen service on our iron-clads during the recent war. Her officers are given, as follows:

Lt. Com'dg, John R. Burke; 1st Lt., F. Devereux; 2d Lt., Samuel Jones; Sailing Master, Peter Carey; Surgeon, Dr. E. H. Perkins; Ass't Surgeon, Dr. H. P. Scovel; Boatswain, Caldwell Taylor; Quartermaster, Height Tabor; Chief Gunner, Martin Kerwin; Gunner's Mates, Andrew O'Neill and Patrick Lynch.

Lt. Burke was a master's mate in the navy during the war, and distinguished himself at Roanoke and off Mobile. Of his assistants Lieutenant Devereux served on the ram Tennessee; while Lieutenant Samuel Jones was at one time gunner's mate on the famous Alabama. The other officers have all "seen service" in both the Federal and Confederate navies, while Martin Kerwin, chief gunner, served in that capacity on Her Majesty's frigate Terrible, and is said to be an unusually accomplished officer in his peculiar line.

It is also stated that before leaving Ireland, C. O. I. R. Stephens issued letters of marque and reprisal to the Estelle, to capture, burn, sink or destroy any English vessels out of neutral waters that she may encounter, and Captain Burke announced his intention of making the Atlantic too hot for a British ship. It is declared that the incoming Cunard steamer is to be captured at all hazards, and to that end the Estelle has sailed directly in the track of the expected vessel. Others will follow as chance offers, and it is the purpose to detach a portion of the arms and men on board the Estelle to the first most available English craft captured, and thus improvise another privateer.

The Cambria Iron Company of Johnstown, Pa., confines itself to the manufacture of railway iron. It has a capital of $1,650,000, which is to be increased to three millions and employs 3,200 hands. In order to give employment to the wives and daughters of its laborers the company has just built an immense woolen mill, and will soon have it in operation.

The President's Appointments.

President Johnson is promptly sending to the Senate for confirmation or rejection, the appointments made by him during the recess, which he might have held back until near the close of the session. Among the nominations sent in today was that of Gen. Swift of Boston, with nearly all of the New England Internal Revenue appointments.—[Sp. to Boston Journal.

[By Cable to Associated Press.]

Terrible Colliery Explosions in England.

Southampton, Dec. 13—Evening. Steamship Teutonia, from New York, arrived today.

London, Dec. 13—Evening. Despatches received today from the East report that a rupture of relations between the governments of Turkey and Greece is imminent.

Bamsley, Dec. 12—Evening. A terrible explosion took place at Oaks Colliery, near this place, at one o'clock this afternoon.—This colliery contains the largest pit in this district of the county. The shaft is 270 yds. deep, and the lateral works extended a distance of two miles from the bottom of the shaft. Nearly 400 men were in the mine at the time of the explosion and nearly all perished.

Nine, p. m. Every aid is being given to rescue the survivors. Exploring parties have counted 38 dead bodies within a space of 50 yards. A few of the unfortunate victims have been brought out alive, but badly mutilated. The engineers are of opinion that owing to the foul air there can be no more alive in the works. If this be so, over 300 lie dead in the recesses of the pit.

Bamsley, Dec. 13. Another explosion took place in the same pit at 9 o'clock this mornings while the working party were finding and drawing out the dead. Eighty of the bodies had been brought out when the second explosion took place. Several officials and a number of volunteers were in the pit at the time of the second disaster, and it is feared that they have all perished.

London, Dec. 13. Consols closed at 88½ for money.

American Securities—The following are the closing prices:—U. S. 5-20s, 71, Illinois Central railroad shares, 77½; Erie railroad shares, 47½.

The President's party, true and reliable, is said to consist now of three members in the Senate, and three in the House.

An Effectual Worm Medicine

BROWN'S VERMIFUGE COMFITS,

OR WORM LOZENGES. Much sickness, undoubtedly, with children and adults, attributed to other causes, is occasioned by worms. The "VERMIFUGE COMFITS," although effectual in destroying worms, can do no possible injury to the most delicate child.—This valuable combination has been successfully used by physicians, and found to be safe and sure in eradicating worms, so hurtful to children.

CHILDREN HAVING WORMS require immediate attention, as neglect of the trouble often causes prolonged sickness.

SYMPTOMS OF WORMS IN CHILDREN are often overlooked. Worms in the stomach and bowels cause irritation, which can be removed only by the use of a sure remedy. The combination of ingredients used in making *Brown's "Vermifuge Comfits"* is such as to give the best possible effect with safety.

Whig & Courier

Important to Maine Men—the New Method of extracting Tannin from Hemlock Bark.

To the Editors of the Daily Whig.

Presuming upon the well known public spirit of the Whig & Courier, I have ventured to ask the privilege of placing before your readers through the medium of your columns, the advantages which may accrue to those interested in the proprietorship of the great hemlock forest which abound, to such an unlimited extent in that almost interminable wilderness which still over shadows so large a portion of your State, who have the intelligence to appreciate and the energy necessary to develope those now offered in an enterprise to which their attention has recently been called through an advertisement in the Whig & Courier, and in consideration of the greater extent to which that material abounds in Maine or other states in the Union, is rendered peculiarly valuable in that locality. I allude to, the manufacture of Hemlock Bark Extract, an article which has recently attracted much attention with tanners throughout the country, and particularly with the tradein this part of Massachusetts where Hemlock Bark bears so high a price, and where so great a quantity is required to sustain the manufacture of leather. It is found from careful computation that more than 300,000 cords of bark is required annually to sustain the manufacture of leather in eastern Massachusetts alone. This is principally derived from your own State, though large supplies are furnished from the distant ports of New Hampshire, the Green Mountains of Vermont, and from the wilderness of northern New York. The expense of hauling the bark to places of shipment for this market, and the cost of transportation here brings it to an average cost in freight per cord, of ten dollars; leaving to the peeler, and shipper but a small remuneration for the capital and labor employed. Even at the high prices, $12 to 17, per cord, which bark commands in this market, the cost of hauling it twenty miles inland to places of shipment, renders it prohibitory for this market. Therefore, 99-100 of the hemlock bark of Maine—at the present rates—and tanners cannot afford to pay more—is not available for use here—only by means of reducing the strength of the bark to an imperishable extract.

Hemlock bark weighs, on an average, from 1800 to 2000 lbs. While the entire strength of one cord reduced to 200 gallons of extract weighs 2666 lbs or the entire strength of one and a half cords makes 40 gallons of extract weighing just 400 lbs. The cost of manufacturing this extract on, or near the ground where the bark is peeled, will not exceed fifty cents per cord, and the cost of transporting it from thence to this market, will not exceed seventy-five cents per cord. Thus in localities in the wilderness where bark can be had at three Dollars per cord, it can be manufactured into extract, and delivered in this market at a cost of $4,25 per cord, commanding a ready sale here at six cents per lb or sixty cents per gallon, which is equivalent to ten dollars per cord, thus yielding to the manufacturer a net profit (his barrels sell at cost) of eleven dollars and seventy-five cents on every cord he reduces to extract. When bark for manufacturing extract is worth eight dollars per cord at the place of manufacturing, it will yield a net profit of six dollars and seventy-five cents per cord.

While there is not ten acres of hemlock forest 20 miles inland from transportation facilities in your State to this market that will pay a freight on bark peeled and shipped to our docks, there is not an acre of hemlock found in any locality, however remote in your great wilderness, that is not available for the manufacture of the extract and shipment to this market at a profit greater than can be realized on the shipment of bark from the most contiguous forest to transportation facilities in the eastern and northern portion of the State. These are the substantial inducements which this new branch of industry offers to those of your people whose intelligence will enable them to comprehend why it is, that a business can furnished, and of a legitimate character, which offers on the capital and labor necessary for its prosecution profits of so unusual a character.

For the reflection or consideration of those of your citizens to whom this subject is new, I will enumerate some of the reasons which guarantee a permanence to the business and a perpetual remuneration of the extraordinary character named. In the first place two centuries of New England enterprise has swept from Connecticut, Rhode Island, and from all that portion of Massachusetts lying east of the Green Mountains ranging through her western countries all the hemlock forest which once overshadowed this portion of New England as it has from the Saco to the Bay of Fundy, from the coast a hundred miles inland in your own state and from the cultivated and accessable portions of New Hampshire and Vermont, thus compelling our tanners of light stock who from the nature of their business are obliged to conduct it in the vicinity of the markets (sole leather tanners to avail themselves of cheap bark, usually prosecute their business of manufacture in the remote wilderness where bark is plenty preferring to submit to the inconvenience of the forest and the heavy freights both ways consequent to distance from the hide and leather markets) to submit to the high prices of bark which heavy freight over long distances necessarily adds to its cost. As the entire strength of the bark unimpaired can be brought in the extract at such reduced rates and as it is much more convenient for use and saves all expense of stowing, handling, grinding, shoveling and leaching bark, and the capital for constructing powder, mills, leaches, &c., for this purpose, it necessarily places a margin in the hands of sole leather tanners in the vicinity of the market, which manufactures of that article in the remote hemlock forest, will find it hard to compete with.

These considerations together with the constantly increasing price of bark in their immediate vicinity arising from the competitors of those who collect it for shipment to this market, must gradually and ultimately concentrate the manufacture of sole leather around the markets, which will more then quadruple the demand for the extract. It is also known to scientific men, and especialy to tanners, that the Hemlock Bark of the Western States, Michigan, Wisconsin, Minnesota and Iowa, there is but little in Indiana, and none either in Illinois, Missouri or Kansas, is far inferior in its qualities to Eastern bark. One cord of the latter being worth two cords of Western. Hence the reason why Western hides are sent to our markets and why so few tanneries are to be found in the Western States. Let the tanners of Michigan and Wisconsin once understand that they can depend upon an ample supply of pure extract, and they will discontinue the use of the expensive and worthless article they are now compelled to rely upon, and which is only bark in name, and when the people of Illinois and other Western States learn, too, that this extract can be had in abundance, tanneries will spring up in all the prominent towns throughout the West, and the people will no ger depend upon others for an article they can as well manufacture among themselves. But independent of this unlimited demand for the extract for home consumption, the necessities of Foreign manufactories will open an avenue for its sale, in that direction beyond our ability to supply, though no demand for it existed among ourselves. It already commands in this market, 60 cts per gallon for export to Liverpool where a rapid demand is growing up. The British Government have prohibited the further waist of Oak timber for the supply of the manufacturing of Leather, fearing an eventual scarcity of ship timber. This has driven their tanneries to seek their supply of bark from the forests of Norway and from the hemlock regions near the shores of the Gulf and river St. Lawrence.

These considerations with the necessity of constantly enlarging the facilities for the production of Leather, in order to keep peace with the increasing demand which the rapidly populating States call for, are the guarantees which insures to the people bordering the great Hemlock districts of the country, a permanent and remunerative business in the conversion of their hitherto almost worthless forests into an article of great commercial value to themselves, and of indispensable necessity to the country at large. The establishment of a few of these, extract factores in the wilderness in different parts of your State, will at once quadruple the price of every acre of Hemlock forest in Maine. Therefore every man interested in proprietorship of their wild rugged regions, should at once interest himself in the encouragement of an enterprise so important to himself and which is so well calculated to stimulate and invigorate every branch of trade and industry in the neighborhood of the localities where it is conducted.

It will be found on enquiring among the tanneries of this vicinity, that the use of bark will be discontinued in this locality, just so soon as tanners can rely with certainty on an ample supply of a good article of extract. There is at present but about one hundred and fifty barrels of extract sold per day in this market and this is principally supplied from Canada East. It gives good satisfaction, it is however but a fractional part of what is required to warrant tanners in relying upon it to the exclusion of bark. Several large establishments for the manufacture of extracts are under way of construction in and arround the greater Northern wilderness of New York, relying on the Western States for a market for their products.

That no one may be mislead in this matter, I will state that owing to the want of skill in the manufacture of this extract, and from the use of improper appliances in concentrating it at the commencement of its introduction, it met with but little encouragement from our tanneries. But from the discovery and adoption of new, and more simple appliances for making it, all difficulty has been removed, and an article is now produced as pure as Hypurs leached from bark by the best process in use by our best scientific tanners; any man with ordinary intelligence, can after seeing one operation, make it without difficulty. All the appliances are simple and not expensive, as it has the encouragement of every tanner engaged in the manufacturing of leather in this locality. Any person feeling an interest, and wishing further information can refer to any one engaged in the trade in this part of Massachusetts.

THOS. W. JOHNSON

American House, Boston, Dec. 7th, 1866

BRAINS.—Untillately it was supposed that the relative weight of the brain, as compared with the body, was greater in man than in any of the lower animals; but alas! for poor human nature, it is now known that some of the smaller South American monkeys have proportionately, a larger share of brain than our noble selves. On the other hand, however, man carries (absolutely) more weight in his cranium than any other breathing creature except the elephant and whale. As a rule, the human brain increases in gravity—specific gravity we mean, of course—up to the twentieth or twenty-first year, and from the "age of discretion" till the fortieth year usually remains in *statu quo*. After forty the organs, in most cases, begin to grow less. It continues to decrease in volume more rapidly as we grow older, and in those who are unhappy enough to reach the seventh stage of "second childness and mere oblivion," there is nothing of it left worth mentioning. As a proof that the weight of the encephalic mass determines to a considerable extent the amount of intellectual power, it may be stated that when the former is less than thirty-two ounces—forty-nine ounces for the male and forty-four for the female brain is the average—idiocy or partial imbecility invariably accompanies the defect. The heaviest brain on record is that of Cuvier, the great naturalist, which pulled down nearly sixty-four ounces.

POISONOUS GASES FROM OIL LAMPS. Many persons who use kerosene or oil lamps, are in the habit, when going to bed, or leaving a room for a time, of turning the wick down low, in order, to save a trifle of the consumption of oil. The consequence is that the air of the room soon becomes vitiated by the unconsumed oil vapors, by the gas produced by combustion, and also by the minute particles of smoke and soot which are thrown off. Air thus poisoned is deadly in its effects, and the wonder is that more persons are not immediately seized with inflammation of the throat and lungs, headache, dizziness, and fatally injured by breathing. Irritation and nausea are among its effects. [Patterson (N. J.) Press.

A CRAZY WOMAN'S WILL. The Julme will case has finally been brought to an end in New York. Madame Jumel was best known as the widow of Aaron Burr—Jumel being the name of her first husband. She died leaving property valued at $800,000. In her old age she lost her reason, and was induced to bequeath all her property to an up-town church and clergyman, entirely disinheriting her own relatives. The will has now been set aside, and the property will probably be handed over to the descendants of the widow. In her old age Madame Jumel indulged in some very extraordinary freaks. She was impressed with a belief that the Prince of Wales intended to visit her house, and she caused extensive preparations to be made for his royal highness's reception, among other things preparing a costly dinner. The dishes, complete in their way, were placed upon a table in the principal room of the widow's house—this room she never permitted any one to enter—and it was not until after her death that the mouldy remnants of the feast were removed. She lived in constant fear of robbers, and equipped and established a guard of 30 men, who watched her house, relieving each other in military style. She caused the grounds about her house to be mined for hidden treasures. She believed that her nephew intended to kill her by some other means; she drank enormous quantities of sweet oil to neutralize the possible effects of poison. On one occasion she ate 24 pint boxes of strawberries, and immediately afterwards drank a tumblerful of sweet oil. She affirmed that she could cure all diseases by the imposition of hands. These things being shown on the trial, the jury decided for the parties contesting the will.

A LION IN HIS OLD AGE. When a young lion reaches the age of two years he is able to strangle or pull down a horse or an ox; and so he continues to grow and increase in strength till he reaches his eighth year, and his talons, teeth, and mind are perfect; and he grows no more. For twenty years after he arrives at maturity his fangs and talons show no signs of decay; but after that he gradually becomes feeble, his teeth fall him, and he grows cubbish. He is no longer a match for the tremendous buffalo; he is overmatched even by the peaceful ox, so he prowls around the cattle krawls, and snatches a lamb or a kid just as he did when he set out with his parents, nearly thirty years before. A woman or a child at night shares the same fate. His strength and sight now decline more and more, till the mighty lion grows, lean and mangy, and crawls about from place to place, eating any offal he can pick up, and despising not even so small an animal as the field mouse, so he starves and dies, or is fallen on and slaughtered by a few cowardly hyenas; or, discovered unable to move beneath a tree and knocked on the head by some wandering hunter.

The Pacific Mill of Lawrence is said to be the largest single mill in the United States. It manufactures delaines, cassimeres, linsys and chalines, and employs a capital stock of $2,500,000. The mill is 800 feet long, 70 feet wide, and employs 25 sets of woolen cards, and 112,000 spindles 2,900 looms 3,000 hands, and consumes nearly 1,100 tons of cotton, 520 tons of wool; 6,200 tons of coal, 10,000 gallons of oil, and 225 tons of starch in making 18,720,000 yards of goods per annum. A printing department is connected with it, which occupies a mill 920 feet long, and employs 20 printing machines, 530 hands and prints 25,000,000 yards of goods per year.

A good joke is told at the expense of a suburban school teacher, who kept after school a youngster who had manifested a great aversion to acquiring additional learning, and in the course of the reprimand the teacher said:

'Now James, can you tell me one single thing you have learned since the quarter commenced?'

'Yes, I have learned one thing.'

'What is it?'

'Well I've learned where there is a bully chestnut tree that none of the boys know anything about, and I was going there for nuts if you hadn't kept me after school.'

NEW YORK

LIFE

INSURANCE COMPY.

Which is the Best Company to Insure in?

THE Massachusetts Commissioners, in presenting their Eleventh Annual Report to the Legislature of that State, say, "More than a million of persons belonging to the cream of our population are directly interested in this question." In no State is the ground better canvassed, and the character of the Companies more fully understood, than in Massachusetts. Nowhere are the Commissioners' reports so freely distributed and closely scrutinized.

The NEW BUSINESS of the four leading Companies in the city of Boston for 1865 was as follows:

New York Life, N.Y, $1,232,600

Mutual Life, 830,500

Mutual Benefit, N.J., 256,500

Connecticut Mutual, Ct, 174,350

New Business of Same for 1865.

Company.	Amount insured.	Premiums paid	No. Agts. 1865.
New York Life,	$2,262,500	$129,301 34	1
Mutual Life,	1,332,000	76 287 52	4
Connecticut Mutual	318,100	28,702 99	1
Mutual Benefit,	not given	54,161 69	1

New Business in the whole State of Massachusetts in 1865.

Company.	Amount insured.	Premiums paid.	No. Agts.
New York Life,	$2,918,000	$153,193 53	3
Mutual Life,	2,847,495	138,283 81	26
Connecticut Mut'l	1,050,706	49, 91 32	16
Mutual Benefit,	not given.	74,849 99	7

The solid men of Massachusetts, as shown above, say the NEW YORK LIFE is the best.

DIABETES,

STONE IN THE BLADDER, CALCULUS, GRAVEL, BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

IRRITATION OF THE NECK OF THE BLADDER. INFLAMMATION OF THE KIDNEYS CATARRH OF THE BLADDER.

STRANGUARY AND BURNING OR PAINFU URINATING.

For these diseases it is truly a sovereign remedy and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.

Are you troubled with that distressing pain in the small of the back and through the hips. A teaspoonful a day of the Constitution Water will relieve you like magic.

PHYSICIANS

Have long since given up the use of buchu, cubebs and juniper in the treatment of these diseases, and only use them for the want of a betterr remedy.

CONSTITUTION WATER

Has proved itself equal to the task that has devolved upon it.

DIURETICS

Irritate and drench the kidneys, and by constant use soon lead to chronic degeneration and confirmed disease.

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful in curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

STROUDSBURG, PA., Jan 20, 1866.

DR. GREGG:

Dear Sir:—I wish to inform you that I have been under the treatment of some of our best physicians for nearly two years, without receiving any benefit. I had lost all confidence, and I indulged in but little hope of a cure from any source. My disease was dropsy and my physicians told me that there was no cure for me. I was tapped some fifty times, and at the different operations about 1200 pounds of water was removed.

I am happy to inform you that I have been completely restored to health by the use of Constitution Water.

I make this statement hoping it may reach those persons who may be similarly afflicted.

Respectfully,

MRS. MARGILL C. LEVANWAY.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA; OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be specialty cured by the Constitution Water.

That disease known as FALLING OF THE WOMB, which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pains in the back and sides, and at times accompanied by sharp, lancinating or shooting pains through the parts, will, in all cases be removed by the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervousness, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are the disease, or the disease the symptoms. We can only enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flushes of Heat Languor, Lassitude, and Dimness of Vision.

READ! READ!! READ!!!

DANTILLE, Pa., June, 1862.—*Dr. William H. Gregg—Dear Sir*:—In February, 1861, I was afflicted with sugar diabetes, and for five months I passed more than two gallons of water in twenty-four hours. I was obliged to get up as often as ten or twelve times during the night, and in five months I lost about fifty pounds in weight. During the month of July, 1861, I procured two bottles of Constitution Water, and in two days after using it I experienced relief, and after taking two bottles I was entirely cured soon after regaining my usual good health.

Yours truly, J. V. L. DE WITT.

BOSTON CORNERS, N. Y., Dec. 27, 1861.—*Wm. H Gregg & Co.—Gents*:—I freely give you liberty to make use of the following certificate of the value of the Constitution Water, which I can recommend in the highest manner:—My wife was attacked with pain in the shoulders, whole length of the back, and in her limbs, with *palpitation of the heart and irritation of the bladder*. I called a physician, who attended her about three months, when he left her worse than he found her. I then employed one of the best physicians I could find, who attended her for about nine months, and while she was under his care she did not suffer quite as much pain. He finally gave her up, and said "*her case was incurable. For,*" *said he, "she has such a combination of complaints that medicine given for one operates against some other of her difficulties.*" About this time she commenced to use the Constitution Water and to our utter astonishment, almost the first dose seemed to have the desired effect, and she kept on improving rapidly under its treatment, and now superintends entirely her domestic affairs. She has not taken any of the Constitution Water for about four weeks, and we are happy to say that it has produced a permanent cure.

WM. M. VAN BEUSCHOTEN.

WEATHERSFIELD, Conn., March 2, 1863.—*Dr. W. H. Gregg.—Dear Sir*:—Having seen your advertisement of "Constitution Water," recommended for Inflammation of the Kidneys and Irritation of the Bladder, having suffered for the past three years, and tried the skill of a number of physicians with only temporary relief, I was induced to try your medicine. I procured one bottle of your agents at Hartford, Messrs. Lee, Sisson & Co., and when I had used half o it, to my surprise, I found a great change in my health. I have used two bottles of it and am where I never expected to be in my life, well, and in good spirits. I cannot express my gratitude for it; I feel that it is all and more than you recommended it to be. May the blessing of God ever attend you in your labors of love.

Yours truly, LEONARD S. BIGLOW.

SNOW POWDER

Patented May 29, 1866.

This is an article for washing without rubbing, except in very dirty places, which will require a very slight rub, and unlike other preparations offered for a like purpose, WILL NOT ROT THE CLOTHES, but will leave them much WHITER than by ordinary methods, without the usual wear and tear.

It removes grease spots as if by magic, and softens the dirt by soaking, so that rinsing will in ordinary cases entirely remove it.

This powder is prepared in accordance with chemical science, and upon a process peculiar to itself, which is secured by Letters Patent. It has been in use for more than a year, and has proved itself an universal favorite wherever it has been used.—Among the advantages claimed are the following, viz:—

It saves all the expense of soap usually used on cotton and linen goods.

It saves most of the labor of rubbing, and wear and tear.

Also, for cleaning windows it is unsurpassed.—With one quarter the time and labor usually required it imparts a beautiful gloss and lustre, much superior to any other mode. No water required except to moisten the powder.

Directions with each package.

And can be read by appreciated by a single trial. The cost of washing for a family of five or six persons will not exceed THREE CENTS.

The manufacturers of this powder are aware that many useless compounds have been introduced to the public which have rotted the cloth, or failed in removing the dirt, but knowing the intrinsic excellence of this article, they confidently proclaim it as being adapted to meet a demand which has long existed, and which has heretofore remained unsupplied. Manufactured by

HOWE & STEVENS,

260 Broadway, Boston.

For sale by Grocers and Dealers everywhere.

The New Bounty Law.

SAVE YOUR MONEY!

SOLDIERS AND THEIR HEIRS can get the New Bounty, given by an Act of Congress of July 28, 1866, by calling on the subscriber, United States Special Agent, cheaper than at any other office in the State.

Daniel Sanborn,

aug 1—tf *U. S. AGENT.*

Pensions!---Bounty!

(NEW LAW!)

Important to all Soldiers!

PENSIONS INCREASED.

I AM AUTHORIZED, BY LAW, TO OBTAIN an *INCREASE* of Pension from

$8 to $15 Per Month,

For *every* Soldier who lost a *hand* or *foot* in the army, or who is disabled by wounds or sickness *equal* to the loss of a *hand* or *foot*.

Also—An *INCREASE OF PENSION* for other classes, and for dependent *fathers* and brothers.—Full information given by calling on the subscriber.

BOUNTIES EQUALIZED!

This Law has passed the House and will become a law in a few days—when all the early soldiers of the war, and their widows and heirs, shall have their just due.

☞ Apply early, either in person or by letter, at the OLD WAR CLAIM AGENCY of

C. P. BROWN,

June 18th, 1866.—d&wlf *BANGOR.*

Special Notice

To Soldiers and Seamen!!

The Law Has Passed!

Bounties Equalized.

Justice Done the Early Soldiers and Seamen of the War, their Widows and Heirs.

NOTICE has been sent me from Washington, that the Law equalising the bounty to Soldiers and Seamen was passed Saturday last, July 28th, by Congress,

I am now authorized and prepared to collect this Bounty for every Soldier and Seaman entitled, also for their Widows and Heirs.

☞ Application made personally at my office, or by mail,—the discharge of the Soldier or Seaman should be handed in—as it must be forwarded with the application.

☞ All applications must be made signed, witnessed and sworn to, AFTER THE PASSAGE OF THIS LAW. Many soldiers have been induced to sign papers before the law passed. This practice is irregular, fraudulent and void, and papers in all such cases must be made over.

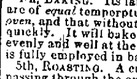
November 10, 1866. EDWIN NOYES, Supt.

NATIONAL HOUSE,

Harlow St., Bangor, Maine,

A. R. GREENOUGH, - - - Proprietor.



This House is situated in the most business part of the City, and is now open to the travelling community.

The Proprietor hopes by strict and personal attention to receive a liberal share of patronage.

The tables will be furnished with the best the Market affords, and every attention paid to the wants of his guests.

There is attached to this House a good STABLE, with attentive Ostler. Charges moderate.

A. R. GREENOUGH.

Bangor, September 1, 1866.

SNELL HOUSE.

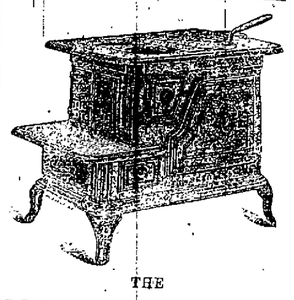
The Subscriber, has purchased the above House, and proposes to keep a

"First Class Hotel."

He has repaired the House, put down new carpets, made additions to the furniture, &c., &c. He has also secured the services of M. H. HUNTRESS, as Clerk. And by the experience he has had in the business, he flatters himself that he can suit the people of Aroostook—*or any other man.*

GEO. PARKS, Proprietor.

Houlton, July 1, 1865. 1y8



THE

BEST COOKING STOVE,

IN THE MARKET,

"PEERLESS," FOR COAL OR WOOD.

THE "PEERLESS" has all the advantages of the popular stoves in use, together with such NEW FEATURES as justify the manufacturers in calling it the BEST COOKING STOVE in the market.

It is the "PEERLESS," because it is superior to all other Cooking Stoves in *Economy, Simplicity, Cleanliness, Baking, Roasting and Beauty.*

1st, ECONOMY. A patented method of heating the air and conveying it through the oven, saves from *twenty to thirty per cent. of fuel.*

2d. SIMPLICITY. It is easily managed. The fire can be perfectly controlled, and kept through an entire season without rekindling.

3d, CLEANLINESS. No dust escapes while sh
